

Dear Parent/Guardian(s);

As the School Counselors at Riverview Elementary School, we are offering several small group opportunities for students who could benefit from this type of support.

Friendship/Social Skills is for students who would benefit from a small group setting to interact with others, express their concerns here at school, and to talk about social skills.

Family Change Group is for students whose families are going through separation or divorce and are experiencing changes in their family setting. This group is intended to give added support to the child throughout the transition.

Grief Support Group is for students who have experienced the death of a family member within the last few years. Students in this group can share memories of their loved ones and talk about how to relate to others.

These small groups meet together once a week for 8-10 weeks in our office. It is our hope that helping to meet their emotional needs will help children do their best academically.

Please take a moment to fill out the bottom of this letter and return it to school. If you have any questions or concerns about your child, please contact us at the phone numbers listed below or feel free to stop by our office.
