*The amounts in the table are based on school district taxes for the proposed operating referendum levies and the reduction in levies for debt payments only, and do not include tax levies for other purposes. Tax increases shown above are gross increases, not including the impact of the homeowner's Homestead Credit Refund ("Circuit Breaker") program. Owners of homestead property may qualify for a refund, based on their income and total property taxes. This would decrease the net tax increase for those property owners.

^{***} For commercial-industrial property, the estimates above are for property in the City of Farmington. The tax impact for commercial-industrial property in other municipalities in the school district may be slightly different, due to the varying impact of the Twin Cities Fiscal Disparities program.

^{**}Average value per acre is the total assessed value of all land & buildings divided by total acres. Homestead examples exclude the house, garage, and one acre, which has the same tax impact as a residential homestead.
